IOSH

Managing Safely Course

IOSH Managing Safely

Duration – 4 ½ Days

Course Overview

IOSH Managing Safely is for managers, supervisors and team leaders in any sector and any organisation. It's designed to bring managers up to speed with the practical actions they need to take to handle health and safety within their teams.

Managing Safely won't turn delegates into safety experts – but it will give them the knowledge and tools to tackle the health and safety issues they're responsible for. Importantly it brings home just why health and safety is such an essential part of their job.

What the course offers

Nationally recognised and respected certificated training for managers and supervisors delivered by a trainer with experience in a variety of sectors

No jargon approach with clear scenarios that delegates can relate to

Open courses are run at our premises in Preston, remaining course dates for 2010 – £595 + vat

15th - 19th March

17th - 21st May
